Excell Data Corporation Names Senior Executives

BELLEVUE WA - September 13, 2001 - Excell Data Corporation, today announced that Richard T. (Rick) Jorgensen has been named President and Chief Operating Officer. In his new position, Rick will report to Ed Coleman, CEO and President of CompuCom Systems Inc., Excell Data Corporation's parent company.

Two directors from Excell Data's Contract Consulting Services Division have been promoted to vice president. Greg Welch has been promoted to Vice President, Sales; Jill Welch has been promoted to Vice President, Enterprise Accounts. In addition, Maurice Fuller has been promoted to Director of Operations.

Rick Jorgensen

In his new role as President, Rick assumes total responsibility for of Excell Data operations for all three Excell divisions: Contract Consulting Services, Technical Support Services and Technical Support Group. Since joining Excell in 1995, Jorgensen has held positions as Director of Technical Support Services, Executive Director of Service Business Operations, as well as Vice President and Chief Operating Officer.

Greg Welch

Greg has been Director of Sales for the western region since January 2000. Before joining Excell Data in 1994, he spent 10 years in a variety of executive sales and management positions with several leading firms in the staffing industry. In his new position, Greg will lead the sales efforts throughout the United States for all of Excell Data's service offerings.

Jill Welch

Jill joined Excell in 1996 following eight years with Microsoft Corporation's human resources and staffing organizations. As Vice President, Jill will continue to direct all activities associated with Excell's largest accounts.

Maurice Fuller

Maurice has been Director of CCS Operations since January 2000. Previously, Maurice served as Excell's Strategic Recruiting Manager since August 1998. In his new role as Director of Operations, Maurice is responsible for marketing, recruiting operations, information technology, training, facilities, and office management.
